

Sheldric Wildlife Sanctuary

Sheldrick Wildlife Sanctuary

Location:

- The Sheldrick Wildlife Sanctuary is located in Nairobi, Kenya.
- It is situated in the Nairobi National Park, just a short drive from the city center.

History:

- Founded in 1977 by Dr. Dame Daphne Sheldrick in memory of her late husband, David Sheldrick.
- The sanctuary was established to care for and rehabilitate orphaned elephants and rhinos.

Mission:

- The primary mission of the sanctuary is to rescue, rehabilitate, and reintegrate orphaned elephants and rhinos back into the wild.
- They also aim to raise awareness about wildlife conservation and the protection of these endangered species.

Activities:

- Visitors can enjoy guided tours of the sanctuary.
- There are feeding times where visitors can watch the baby elephants being fed milk.
- Educational talks are available to learn more about the animals and conservation efforts.

Conservation Impact:

- The sanctuary has successfully raised and reintegrated many orphaned elephants and rhinos.
- It plays a vital role in the conservation of these species and has contributed significantly to wildlife protection efforts in Kenya.

Support and Adoption Programs:

- The sanctuary offers a fostering program where individuals can support and "adopt" an orphaned elephant or rhino.
- Funds raised through fostering programs go towards the care and conservation efforts of the sanctuary.

Sheldric Wildlife Sanctuary

Visiting Information:

- The sanctuary is open to visitors for specific visiting hours.
- It is recommended to book in advance as slots fill up quickly, especially during peak tourist seasons.

Conclusion:

- The Sheldrick Wildlife Sanctuary is a beacon of hope for orphaned elephants and rhinos in Kenya.
- Through its conservation efforts and educational programs, it continues to make a significant impact in wildlife protection and awareness.
