INSTRUCTIONS TO CANDIDATE

An organization working in your community to promote the uptake of family planning commodities is set to conduct a baseline survey on male involvement in family planning. The data is set to be collected by community health volunteers. As a community health assistant, the organization has contracted you to carry out the following tasks:

Task 1:

Train community health volunteers on primary methods of data collection.

Task 2:

Train community health volunteer on potential sources of errors during data collection.

You are also provided with the following;

1. 5 simulated community health volunteers.

2. White board.
3. Mark pen.
4. White board.
5. Pen.
6. Note book.

THIS PAPER IS THE LAST PRINTED PAGE.
