PRACTICAL TASKS

1. A questionnaire is a set of standardised questions designed to collect information about a specific aspect or issue in the community. Before you design a questionnaire you need to know what information you need to collect and how it will be used.

You are tasked to train new Community Health Officers in your community health unit on how to develop a questionnaire guided by the following tasks;

- a) **Task 1:** Develop FIVE questions on demographic data.
 - b) **Task 2:** Develop SIX questions on environmental health indicators.
 - c) **Task 3:** Develop THREE questions on Nutritional status indicators.
 - d) **Task 4:** Present and train the new community health officers on developing the questionnaire.
2. You have been provided with the following resources for the practical tasks;
 - i. Simulated audience
 - ii. White board/flipchart
 - iii. White board marker and eraser
 - iv. Fools caps
